

2<sup>nd</sup> October 2019

Dear Parents,

## **CLASS 6 SCIENCE INVESTIGATION**

As you are aware, our science theme this term is 'Healthy Body' which involves learning about the functions of the heart, lungs and circulatory system.

During one of the sessions, we will like to perform a heart dissection to study its internal structure. This will require the children dissecting a lamb's heart to give a clearer understanding.

If you do not wish your child to be involved in this investigation, please complete and return the slip below by **Monday 7<sup>th</sup> October**.

Yours faithfully

Mrs. L. Olajide  
Class Teacher
